900 x 2600	Single	\$682.00	\$882.00
	Multiple	\$675.00	\$875.00

Image Reproduction Services Copying for print

ProLab Imaging uses a custom studio lighting setup to evenly light each image, before photographing your original artwork with one of our specialist cameras. For larger images we will photograph the piece in sections to ensure we capture all the details, down to the brushstroke.

Images are then tested for colour accuracy and necessary adjustments are made. Files to be used for limited edition printing need to be colour tested and prepared properly for printing to ensure the best quality prints.

Image Size	
Up to A4	\$75.00
A3	\$120.00
A2	\$165.00
A1	\$200.00
A0	\$220.00
A0+	Custom

Please note prices may vary depending on the complexity of the job. For example, highly reflective oil paintings may be more expensive to copy; black and white drawings will be less.

Image Reproduction Services Documentary scanning

Documentary scans are photographed as above, however no adjustments are made to the file. Colour accuracy is generally good but not guaranteed to the same high level as an image for printing.

Image Size	
Up to A4	\$24.90
A3	\$65.00
A2	\$75.00
A1	\$98.00
A0	Custom

Additional adjustments can be made at your request and are chargeable. For example, removing the paper tone/colour and bringing the background back to pure white will incur an additional charge.

Image Reproduction Services Restoration

ProLab Imaging can remove scratches, mould spots and other imperfections from your scanned photographs. Artwork services are charged at \$100 per hour, in 15minute increments.
