

Prolab Imaging Pricing

The following pricelist contains “standard” sizes, however as we print from rolls, we can print any size/dimensions up to 155cm on the short side (on some of our papers).

Prints come with a 2 – 5cm white border, depending on how the prints fit best onto our rolls. If you require a specific border size, please let us know and your prints will be charged accordingly. Please also let us know if you want your prints trimmed to the edge of the image (full bleed).

Wholesale pricing will be applied for large orders. Please contact us for a custom quote if you are printing large quantities.

We can package your prints for postage. Packing costs will start at \$8 per package, plus materials. We try as much as possible to re-use our paper boxes, so generally don't charge for materials, however there may be times when we need to buy packaging for you.

Small prints (up to A3) will be flat packed for collection. Larger prints will be rolled.

Please feel free to contact us anytime if you need pricing for specific sizes.]

The following prices are effective as of March 1st 2020.

Giclée Fine Art Printing Fine Art Papers

ProLab Imaging stocks a range of Art Papers, all archival quality, approx. 310gsm, ranging from smooth to textured.

	Multiple	\$845.50	\$986.50

All prices include GST

Image Reproduction Services Copying for print

ProLab Imaging uses a custom studio lighting setup to evenly light each image, before photographing your original artwork with one of our specialist cameras. For larger images we will photograph the piece in sections to ensure we capture all the details, down to the brushstroke.

Images are then tested for colour accuracy and necessary adjustments are made. Files to be used for limited edition printing need to be colour tested and prepared properly for printing to ensure the best quality prints.

Image Size	
Up to A4	\$80.00
A3	\$130.00
A2	\$175.00
A1	\$220.00
A0	\$235.00
A0+	Custom

Please note prices may vary depending on the complexity of the job. For example, highly reflective oil paintings may be more expensive to copy; black and white drawings will be less.

Image Reproduction Services Documentary scanning

Documentary scans are photographed as above, however no adjustments are made to the file. Colour accuracy is generally good but not guaranteed to the same high level as an image for printing.

Image Size	
Up to A4	\$28.00
A3	\$75.00
A2	\$90.00
A1	\$110.00
A0	Custom

Additional adjustments can be made at your request and are chargeable. For example, removing the paper tone/colour and bringing the background back to pure white will incur an additional charge.

Image Reproduction Services Restoration

ProLab Imaging can remove scratches, mould spots and other imperfections from your scanned photographs. Artwork services are charged at \$100 per hour, in 15minute increments.

All prices include GST
